Outrages in Mississippi

Jackson, Miss., January 17.—The following letter will appear in the New Mississippian. A copy was handed to-night to the correspondent of the associated press:

SARATOGA, Miss., Jan. 16, 1889.

To the Editor of the New Mississippian, Jackson, Miss.

DEAR SIR—I sent you a telegram this morning giving a short account of what is going on in the northern part of Kemper and the southern part of Noxubee counties. Had previously written the governor on the same subject. Any one not a sensationalist, but who is composed of the most depraved and irresponsible part of our community can rob and plunder defenceless women and children and drive them from their homes, carrying on their persecution for three weeks without check or hindrance. It is time that some one take the initiative and appeal to those who are such in authority and have been entrusted by law with the prevention of our lives and property. Crimes have been committed that the outside world are not dreamed of. Brutes feeling no restraint of law or honor have endeavored to see how deep they could step in infamy. As I telegraphed you to-day, over 40 families (by actual count) have been driven from their homes. Many of these families own farms of industry have paid for their lands and stock and supplies sufficient to make crops. These people have committed no crime unless indicted it is a crime to be born black. No charge has ever been made against them. Three families have been notified to leave within five days. One woman has a child eleven days old and another a child about three weeks old. Their limit will expire to-morrow. They are now wading through mud and rain, hauling their furniture, meat and bedding and household furniture to save them from the vandals. It is time the eyes of the state should be aroused. We have been criminally negligent in permitting these outrages to go on almost at our doors without giving any notice to the outside world. I am, perhaps, not competent to judge, but it does seem to me that the governor of the state ought to send people to check the further progress of these outrages, protect them in the enjoyment of their rights and the comforts of their homes. He should take the pulse of the state to do it. Make him put you private on this letter. If it will serve, can in a slight degree draw the attention of the lovers of law, order and fair play to the vandalism going on at our very doors and will have served a good purpose. Respectfully,

(Signed) S. D. CHAMBERLIN.

Governor Lowery is making diligent inquiry into the facts and will take all necessary measures to suppress lawless outrages.

Utah's Claim Heard.

WASHINGTON, January 17.—The hearing on the claims of Utah to be admitted as a state were continued by the senate committee on territories. Delegate Caine of Utah, who began the argument in favor of admission yesterday, resumed. The attempt, he said, to create a belief that priestly inducence would dominate the state; that the Mormon people were subjugated to ecclesiastical tyranny, was part of a shrewdly devised scheme or organized effort to accomplish overthrow of the majority and election to power of the minority. The witness of the church insisted upon separation of civil and ecclesiastical power. There was nowhere to be found a body of people generally intelligent and well informed, whose national tendency was to independence of thought. He took the published statement of the governor and said he hoped the committee would not believe such "twaddle." Let right had any one to apply a religious test to the people of a territory to keep the privileges of statehood to which they were intended? They were American citizens of the United States, presented a constitution republican in form prohibiting polygamy and providing penalties against transgression of fundamental law and making union of church and state impossible.

Delegate Dubois of Idaho then addressed the committee in opposition to admission.

Movements of War Vessels.

WASHINGTON, January 17.—The question as to where the United States steamer Atlanta is to go is settled at last. Orders have been issued to her commander, Captain Howell, to proceed at once to Port au Prince and report Rear Admiral Luce, commanding the north Atlantic station, now on board the flagship. It is expected the Atlanta will reach New York Saturday morning. The United States steamer Galena will go to the United States upon being relieved by the Atlanta, and the commander of that vessel will be in command of the naval forces in Hayden's harbors. Nothing has been heard from the United States steamer Ossipee since she sailed from Norfolk, but it is thought in the navy department that she has reached at Port au Prince before this time.

SAN FRANCISCO, January 17.—There is considerable activity at the Mare Island navy yard owing to recent orders from Washington in regard to the preparation of vessels for sea. The Vandalia will be ready for sea next Saturday. Orders have also been received to prepare the Mohican for service. The Portsmouth will proceed to Port Angeles and there receive a new crew for the ship, and possibly go on to Honolulu. The Pensacola will be ready for sea in two weeks. An order was received to-day to put the store ship Supply in commission and equip her to sail at a moment's notice with supplies for the fleet.

D'Annunzio's Opinion.

NICE, January 17.—Rezach, editor of Republique Francaise, in an article that paper states that a number of prominent Orleanists recently told the Duke of Aumale that it would be to the interest to support Boulanger. The Duke replied that he did not know what such support would be to the Orleanist interest, but he was sure it would be to its credit.

TARIFF QUESTIONS.

A Bill Introduced by the Senate Finance Committee.

Manufacturer and Producers Paid to Oppose Imitations.

The Sugar Bounty Amendment Rejected in the Senate.

Admission of Territories Considered by the Lower House.

Both Sides of the Case

WASHINGTON, January 17.—This room for the senate sub-committee on finance in charge of the tariff bill, heard the arguments of carpet and woolen goods manufacturers and wool growers. The former desired certain modifications in the wool schedule tending to a reduction of some duties, while wool growers wanted additional duties. Their views at times were widely divergent, and they argued with much vigor. As far as to their arguments, made no change in the main lines of the committee.

Senator Sherman proposed the following amendment to the bill, which the manufacturers now have under consideration and will express their opinion upon to-day, the committee to meet on Saturday. The amendment is to read as follows: On wool of the first and third classes, when shall be imported washed, shall be in the amount of duty to which they would be subjected if imported unwashed. Wool of the second class which shall be imported washed shall be five cents per pound in addition to the duty to which they would be subjected if imported unwashed. Washed wools are declared to be such as are washed in cold water on the back of the sheep. The duty on wools of all classes which shall be imported scoured shall be three times the duty to which they would be subjected if imported unwashed. Wool which when imported shall contain less than twelve per cent of the weight thereof of yolk, grease, dirt or other foreign substance of which it shall be cleansed as scoured wool, and pay duty accordingly." Before the bill left the room some of the manufacturers asserted that such amendment would be the practical destruction of their industry, but it is understood that it would work for free wool.

Fifteenth Congress.

SENATE.

WASHINGTON, January 17.—The senate resumed consideration of the tariff bill, the pending question being the adoption of the fifth paragraph. The discussion was continued by Allison and Voorhees. The latter was followed by Sherman, who said that he was surprised that the proposition to increase the duty on plate glass, carrying protection to seventy-five per cent, should be considered by the committee on finance. It was not a question of revenue, but of protection. The importation of plate glass produced no revenue to the state, but was a tax upon the people. The senator from Missouri (Vest) had said that the duty on plate glass was a tax upon the rich. He (Sherman) denied that. Plate glass entered into the construction of the houses of the poor as well as of the rich. The duty on plate glass was a tax upon the poor. Sherman advocated the amendment.

After considerable discussion and with out reaching a vote the senate went into executive session and soon adjourned.

HOUSE.

After transacting some important business of a local character the house went into committee of the whole (Mr. Reed of Maine) in the chair on the bill to provide for the admission of the states of North Dakota, South Dakota, Montana and Washington into the Union.

Mr. Reed of Maine said the right all the territories had to admission on

Adams of Illinois characterized the opposition bill as a monumental subterfuge. Under the people of the territories were entitled to admission as states. They could not stand by and see their rights trampled upon. They could not stand by and see the people of Dakota denied the rights which they enjoyed while left out of the Union. He would show the people of the country the reason why the republicans were opposed to the admission of the people of Dakota.

Grosvenor of Ohio said the object of the senate's bill was to delay the admission of Dakota. Admit Dakota under the senate bill, then consider the claims of other territories.

REAL ESTATE!

THE WARD!

Don't Go Three Miles Out in the Country for Lots when you can get them for the Same Money in

PARRISH'S ADDITION!

Only 3 Blocks from Cascade Avenue!

Only 3 Blocks from The Antlers Hotel!

Only 4½ Blocks from Post Office!

THE STREETS IN PARRISH'S ADDITION

Are 100 to 140 feet in width. THE ALLEYS are all 20 feet wide. There are no 60 or 80 feet streets, and narrow, 10-feet alleys, such as are found in other loudly advertised "Additions," with high sounding titles, where you pay high prices for lots, without duly considering that you are throwing away your money.

In the Alley Behind Every Lot in Parrish's Addition

There is a 3-inch Water Pipe, connected at Chestnut street with a 16-inch main; the Largest in the City's System. THE MAIN CITY DITCH, taking pure, clear water from the Fountain, runs just back of PARRISH'S ADDITION, and within a stone's throw of it.

YOU ARE SURE TO GET WATER

(Both from Pipes and Ditch) in PARRISH'S ADDITION if there is any water in the Fountain, even if other parts of the city are suffering from scarcity of the precious fluid.

REMEMBER THE FOREGOING, and then, when I tell you I will sell you a First-Class

Lot in Parrish's Addition for $350

To $1,000 a full size Lot 50 by 190 feet—do not hesitate a moment about buying. You can buy two lots on a corner, and erect pretty little cottages across them, giving each cottage a neat, pretty little yard, and readily rent them, owing to the location, etc.

To Pay You 25 to 35 Per Cent Per Annum on the Entire Investment.

WHERE CAN YOU DO THIS ELSEWHERE?

The Street Car Line Runs Through PARRISH'S ADDITION, from East to West, and will doubtless soon be extended to the North, past the "Mesa Road," up to THE ROCK ISLAND SHOPS. *Lots are sold on Terms to Suit Buyers, if possible.*

I AM ALSO SELLING

LOTS IN CALVERT HEIGHTS!

On Easy Terms, and at from $300 to $400. They bear just much the same relation to

COLORADO CITY,

As do Parrish Addition Lots to Colorado Springs, and

I CAN RECOMMEND THEM AS AN INVESTMENT!

SURE TO PAY A BIG PROFIT

DURING THE COMING YEAR.

CALVERT HEIGHTS!

Is surrounded by growing and progressive enterprises. THE MIDLAND SHOPS lie at its Northeast corner. Colorado City proper is North and Northeast of it. Bott's Additions join it on the North and Northwest. Colorado Springs itself is in full view, only two miles to the Southeast, and last though not least important,

The Great Glass Manufacturing Works

Are to be erected (at once) just south of CALVERT HEIGHTS. I have arranged to have every lot supplied with PURE WATER INPIPES.

THE LOCATION IS SUPERB!

THE SURROUNDING VIEWS

ARE MAGNIFICENT!

Last year I recommended you to buy lots in Parrish's Addition, and they have paid a better Profit than any other lots on the market. This year I urge you to add to Your Investment as Many Lots in Calvert Heights as you can afford to buy, with the result that, before the year is out, *you will again be glad that you have taken my advice.*

CALL EARLY! BUY SOON!

There are not very many lots along there, and those who apply late, may find them all gone, and will have *to Pay an Advance.*

Chief Ferrin received several additional subscriptions to the new fire alarm bell for the north part of town yesterday. Only a small amount of money is needed now and those who intend subscribing to the fund had better do so immediately as the chief expects to go east next week and would like to be able to select the bell and make other arrangements while away.

The normal Sunday school teachers' class under the leadership of Rev. W. H. Brodhead, of Denver, will meet on Friday of this week in the parlors of the Congregational church at 7.30 p. m. All persons interested in Bible study and especially Sunday school teachers are invited to be present. This class has awakened much interest.

The University club has arranged the following programme for the meetings during the remainder of the winter and spring: "February 12th, paper by Mr. John Gardener, "Robert Elsmere," March 12th, "A Year Among French Artists," Thomas C. Parrish; April 9th, "The Ethics of Tolstoi," Rev Geo. E. Merrill; May 14th, the annual dinner

There has been some street rumor lately that the street car company intended to extend its lines to Cheyenne canon in the spring, and was trying to secure the right of way. Inquiries of members of the company yesterday proved that there was no truth in the report The company will probably extend its line in the north part of the city as far as the city ditch in the spring, but even that will not be done unless the company receives some encouragement from the citizens in that part of town.

Miss Anna Curtis is visiting friends in Denver.

Mr. L. S. Wright of Denver is stopping at the Cliff house.

Mr. D. [illegible] of Denver is registered at the Cliff house.

Hon. W. H. Cowell is expected home from Colorado Springs and return tonight.

Mr. A. W. Bayley was down from Denver yesterday and registered at the Cliff house.

Extensive improvements are being made to the new hotel properties for next season.

Mrs. H. J. Proctor and Mrs. C. Van Arken of Fox Paul Mines are registered at the Cliff house on their way to the Grand and the Yellowstone.

Mr. A. B. Wilhelme will shortly start on a trip to California in the hope of overcoming from the effects of his recent siege of typhoid fever.

Mr. Frank S. Curtis has arrived from Waukesha, Wis. and is at the Cliff. He will remain here in the capacity of assistant to Mr. D. L. Sterling, the newly appointed manager of the Manitou Mineral Water company's business.

The articles of incorporation of the Book Building association were filed in the county clerk's office yesterday. The incorporators are W. F. Anderson, J. J. Hagerman, J. A. Hayes, Jr., Louis R. Ehrich and Benjamin F. Crowell of Colorado Springs, and the object is to purchase and acquire title to ground in this city and to construct, erect and maintain thereon a building to be used for business purposes. The capital stock is $200,000 divided into 2,000 shares of $100 each, and the company is to exist for a term of twenty years. The directors for the first year are J. J. Hagerman, J. R. Buck, W. F. Anderson, Joseph F. Humphrey, L. R. Ehrich and J. A. Hayes, Jr. For some time the company has been trying to secure the property west of the bank so that the new building would have a proper frontage on the south. This is the property now occupied by Baron & Cowlie as an office. The owner of the place, who lives in New York, asked more for the property than the company felt that it was worth, but last week they decided to buy it on his terms and telegraphed him to that effect. They are daily expected to receive their deeds to the property. The piece of land is 22 feet wide by 70 feet deep. This will be pleasant news to a majority of our citizens, who are interested in seeing substantial improvements in the business part of town, as it insures the new building a frontage of 70 feet on Pike's Peak avenue. The price paid is reported to be $15,000.

Ticket No. 5,982 was the number that drew the capital prize in the Louisiana State lottery on the 15th of this month. The capital prize is $300,000, and each ticket is divided into twenty parts. One of the twentieths in the above number was held in this city. It was sold to a lady by the Buckeye Mercantile company, which does business in the corner of Tejon and Huerfano streets, last Saturday night. The members of the company refuse to give her name, as she does not wish to be identified with the transaction, but the ticket was seen yesterday by several parties. It is stated that it has been deposited with the El Paso bank for collection. The Buckeye people say that the money will be left in this city for investment. A funny part of it is that the ticket was held at different times by several parties, and one of them finally traded it back to the firm for four tickets in the Denver Policy association. One night last week several young men were in the store and were themselves by playing dice for lottery tickets, and No. 5,982 changed hands several times. Colorado Springs people always "play 'em high," and are very "liberal" but gambling at the rate of $15,000 a "turn" is pretty steep. Several hundred tickets in the lottery are sold in this city each month.

Immigration Bills.

Washington, January 17.—A majority of the committee on contract labor decided that $5 tax shall be imposed on immigrants. Chairman Ford will make an additional section to the bill which had been prepared to give effect to the views of the committee, and consolidate the exclusion of aliens who do not intend to become citizens. This met with strong opposition, but it was resolved to report the bill as agreed to by the house as an independent measure.

R. W. STEELE, of the Gazette.

The people of the two new states to be made from the territory of Dakota have decided that they wish the states to be called North and South Dakota but Congressman Springer still stands by his determination to christen them something else.

President Cleveland has invited Senator Ingalls to the annual dinner given to the members of congress at the White house notwithstanding the fact that the Philadelphia Times says "the exclusion of Ingalls, of Kansas, from formal entertainments at the executive mansion is a duty that the president owes to his guests, as well as to his self-respect."

Governor Hill's scheme to extend the presidential term to six years is not meeting with much encouragement. The founders of the southern confederacy tried that their presidents should hold office for six years and be eligible for re election, but the founders of our national government thought that four years was long enough, and it is probable that the majority of the people of the country are with them.

Thus far the date for the consideration of the international copyright bill now before congress has not been fixed. There seems to be a disposition on the part of a few members to put off the dying of the day for its consideration and thus accomplish killing defeat, for if it comes to a vote everything seems to point to its passage by a large majority. The enactment of a law to prevent the wholesale pirating of American works abroad and vice versa has already been delayed too long and its prompt enactment now is demanded by both the reading and writing public.

The Hon. John S. Wise of New York, who was one of the callers at the Harrison reception a few days ago, is anxious to have it understood that his pilgrimage was not for the purpose, as was generally [illegible] of urging the selection of [illegible] Wise as a cabinet officer. The call was purely of a social nature and Mr. Wise merely remarked in a casual way to the president-elect that General Mahone was a selfish bigot, unpopular both at home and abroad, and a man who had succeeded in largely reducing the republican vote in Virginia by wire pulling for his personal benefit. All of which goes to show that Mr. Wise's visit was of a purely social nature.

The anarchists show signs of becoming useful citizens. A conspiracy has been divulged which had for its object the killing of Herr Most and several other well known leaders. This conspiracy was hatched by the Arbeiter Bund, a leading anarchist organization which was taught by Most in Austria in 1852, and of which he has since been the acknowledged head. Most and several of his friends are accused of cowardice, since the hanging of the Chicago anarchists and it has been agreed that they must die. If these bloodthirsty people will confine their attentions to their own members no one will object. They should not stop at M[illegible] There are many others of his ilk whose departure from this earth would cause but little regret.

General Harrison's probable policy as to the suppression of the negro vote in the south still continues to worry the press of that section. The president-elect has on several occasions expressed himself in no uncertain language on this subject and in a late letter to a friend in Alabama he says that the continued suppression of the negro vote threatens the existence of our national government. Believing that the safety of the government depends upon it, the southern press may rest assured that General Harrison will use every means in his power to prevent further suppression, and he will do this, notwithstanding the fact that the Macon Telegraph predicts that such a course will revive the race struggle in all its intensity.

Ellis's Chief Desire.

SPARTA, Ills., January 17.—Alf Kennedy, backer of Billy Myers, the Illinois Cyclone, received a telegram from El Paso, Texas offering a purse of $2,000 to have the coming fight between Myers and Jack McAuliffe, of Brooklyn, for the lightweight championship of America, take place there. Kennedy replied that the offer was not sufficient.

A Decision.

WASHINGTON, January 17.—The secretary of the interior has rendered a decision in the case of James K. Martin, guardian of Calvin James, and the city of Cheyenne, Wyo., versus Francis Nolan. The land involved lies near Cheyenne and is used for water works. The decision sustains that of the commissioner of the general land office rejecting Nolan's pre emption application but leaves the claims of Cheyenne still undetermined.

The Zanzibar Insurrection.

ZANZIBAR, January 17.—Arabs have destroyed the missionary station at Tugu 15 miles west of Dare Salem. A majority of the slaves captured by the German man-of-war Leipsciger were lodged at the station. One missionary escaped. Eight were massacred. Three boys, one a woman, were roasted, mutilated barbarously. The Arabs carried off the servants and slaves. A French missionary station near Tuguis in imminent danger. The Arabs are now joining the slave trade, principally from Kiliwa, and find it richer, more influential than Chaheive. These accessions will have the effect to reinforce into the revolt, which would have died out if the Germans had not retained Boga Moyo and Dare Salem.

Control of the Indians.

WASHINGTON, January 17.—The board of Indian commissioners held their annual meeting to day. Resolutions were adopted deprecating changes of Indian officials for partisan reasons and urging extension of the civil service system to the Indian service, opposing removal of tribes from reservations where they are settled and are making progress toward civilization; urging the passage of bills for the relief of the Mission and Round Valley Indians in California, and for the payment of expenses of Indian courts, asking for liberal appropriations for carrying out land in severalty acts; that immediate steps be taken for the industrial education of all Indian children, and demanding that the sacred obligations of treaties be regarded in all negotiations with Indians.

Boiler Explosion.

DEPERE, Wis., January 17.—The explosion of a boiler in a building occupied by Standard & Demorest this afternoon resulted in the severe injury of several employes, who were forced to jump from the second story windows to save their lives from the flames, which quickly enveloped the edifice.

The Opium Smuggling Case.

ALBANY, January 17.—In the United States district court to day Ephraim Gardner, charged with smuggling opium across the Canadian border at Cape Vincent, Ogdensburg, was discharged and the case was laid over to the March term. Bail was fixed at $2000.

MAKING STATES.

Springer's Substitute for the Senate Bill Passes the House.

It is Regarded as a Scheme to Further Delay Admission.

The Dakota Lobby at Washington Feel Disappointed.

They Would Prefer its Rejection by the Senate.

Dakota's Delegation Dissatisfied

WASHINGTON, January 18.—The delegations from both South and North Dakota, who have been here to secure the passage of the senate bill for the admission of South Dakota and an enabling act for North Dakota feel very much dissatisfied with the provisions of Springer's omnibus bill, which passed the house today. They are all saying it will merely serve to delay the admission of South Dakota and render unless all that has been done since the organization of the movement for admission five years ago. They are asking the senate to reject it, and are willing to take their chances with the new congress, hoping and expecting that an extra session will be called by the president elect when he takes office. The delegation regards the provisions of the bill unfair in a political sense and unfair for the material interests of the territory.

The Tariff on Wool

WASHINGTON, January 18.—The senate sub committee on finance spent four hours listening to opposing claims of wool growers and wool manufacturers on schedules in the tariff on wool. The impression prevails that the committee will ask a reduction on the commoner grades of wool from eleven cents to ten.

Fiftieth Congress

SENATE.

WASHINGTON, January 18.—The president's message returning without approval the bill for the relief of William Wheaton and Chas. H. Chamberlain, register and receiver of the land office at San Francisco prior to '72, to pay them the salaries of two clerks of the amount of $3000, was read, and referred to the committee on public land.

The senate resumed consideration of the tariff bill; the pending question being an amendment reported from the special committee allowing a bounty of one cent a pound on sugar produced from beets, sorghum or sugar cane grown in the United States.

Mr. Reagan proceeded to read some extracts from a speech which he supposed to have been made by Henry Clay, but which turned out to have been made after Clay's death and by a namesake of his from Alabama.

Mr. Teller (who detected the error) denied the attempt to "palm off" as speech of Henry Clay's the remarks made by a different individual.

The phrase "palm off" was objected to by Mr. Reagan, who asked Mr. Teller to withdraw it, but Mr. Teller declined to do so as the senator from Texas had charged republican senators with not caring whether they violated the constitution or not.

Mr. Reagan seated himself, remarking that he did not expect anything better from the senator from Colorado.

After a lengthy debate a vote was taken on the sugar bounty amendment. It was agreed to by a vote of 37 to 23, party lines being maintained on it except in the case of Payne of Ohio, who voted with the republicans and Quay of Pennsylvania, who voted with the democrats against it.

Adjourned.

HOUSE.

In the house this morning consideration of the territorial bills was resumed, the pending question being Macdonald's substitute for the Springer omnibus bill, which itself is a substitute for the Senate Dakota bill.

The house proceeded to vote upon McDonald's substitute, which had never been read but which embodies the main features of the omnibus bill except it confers for the immediate admission of South Dakota. The substitute was rejected, yeas 117, nays 122. MacDonald and Tarsney were the only democrats voting in the solid republican vote in favor of the proposition.

Springer then offered his amendment to the omnibus bill looking to the restoration of the Sioux Falls constitution (1885 in case the territory divided. Springer demanded the previous question on the pending amendments and third reading of the bill. Republicans demanded further time for debate, Springer refused, but finally agreed to allow one hour.

Randall declared the territorial bills were taking up the time due appropriation bills, and the edict, "Don't vote," went forth, leaving the house without a quorum.

Springer then withdrew his demand for the previous question and the discussion was resumed.

After some political sparring between Springer and Warner, Struble of Iowa read a letter written by Springer to Governor Ross of New Mexico asking him to have memorials for the admission of the territory and forward them to Washington. He read this, he said, to show Mr. Springer's friendliness to New Mexico, whose legislature never petitioned for admission, with his friendliness to Dakota.

Springer replied that the republican legislature of New Mexico tendered a vote of thanks to Delegate Joseph and asked for assistance for that territory.

Perkins of Kansas moved to amend Springer's amendment by providing that the Sioux Falls constitution was ratified by the people of South Dakota the president shall issue a proclamation declaring the state of South Dakota admitted into the union. Agreed to.

Springer's amendment amended was agreed to.

Amendment providing that the constitution of Montana was embodied in the substitute upon motion of Toole of Montana.

Daugherty of Florida offered an amendment including Utah and Arizona, saying he could not see why an omnibus of democratic origin should let in all of the republican territories and keep out the democratic territories. He did not see why Utah should be kept out. The people were fully equal to statehood and were among the most reliable democrats in this country. The amendment was ruled out on point of order.

The house then proceeded to vote on the pending question, which was on agreeing to the amendment reported from the committee on territories providing for the admission of South Dakota, North Dakota, Montana and Washington. Agreed to—yeas 154, nays 118.

The house then took a recess until 8 o'clock this evening for the consideration of pension cases.

Charges Against Platt

NEW YORK, January 18.—The Chronicle-Enquirer published Tuesday a dispatch from Washington which stated on the alleged authority of Commodore Arthur Bateman of this city that a few days before the recent election Thos. C. Platt demanded and received $250,000 for the use of which no accounting was to be demanded. After the election Platt was expected to have used he used the money to defray the expenses of the Cleveland campaign. The Enquirer's correspondent further said that before election Platt offered the office of secretary of the interior to a Pacific railroad corporation for $150,000, cash to final upon Harrison's election. According to the Enquirer when Bateman was in Indianapolis lately he had these charges before Harrison.

Yesterday Platt wrote a sharp note to Bateman asking if an interview containing these malicious slanders he was correctly reported. Bateman replied that about one quarter of the interview was correct, the balance drawn from imagination. Bateman adds: "This story about the interior department has been current gossip for some time, but it is unnecessary for me to say I never believed it." Platt says he would like to know which quarter of the interview Bateman stands by.

Protection Demanded for Fruit.

JACKSONVILLE, Fla., January 18.—At a meeting of the board of trade yesterday, the following passed:

Resolved, That the interests of the orange growers of Florida demand protection against the competition of foreign-grown fruit; that our senators and representatives in congress are requested to exert their efforts and influence to secure the passage of a law laying an import duty of $1 a box of two cubic feet capacity, or an that proportion upon all oranges and lemons from all foreign countries.

This petition as it is being made is indorsed by boards of trade and other organizations throughout the state irrespective of party.

White Caps Repulsed.

ATLANTOWN, Md., January 18.—An occurrence that nearly resulted in the murder of some prominent citizens of Kennedyville occurred this week. Several notices had been posted in town requesting certain citizens to go to work and their letters, and with the usual crossbones and skull, and signed "White Caps." No attention was paid to the notice given to the White Caps, made a desperate effort to carry out their threats. The residence of Bill Eccles adjoining the railroad was the first place attacked. The inmates were not slow to hear the desire and withdrew and call for help, which fortunately was near at hand. Some of the residents were armed with guns, forks, fence rails and shotguns, and shots were fired but missed their mark, and consequently no one was seriously injured, but the explosion of the weapons caused the White Caps to vacate in great haste.

Denver Slandered.

DENVER, January 18.—The report published in the east that the people are fleeing from this city because of a small pox epidemic, and that there are now from seven to eight hundred cases here is false. From forty to fifty cases have been reported at the health office up to date, which is not greater than usual at this season of the year. The cases are very mild and only three deaths so far. The health commissioner to-day made affidavit that there are only four mild cases of small pox within the city limits. The remainder of the cases are at the pest house, isolated several miles from the city, and under strictest quarantine. The city authorities have taken every means to prevent the disease spreading and there is no fear or possibility of its becoming epidemic.

PUEBLO COMPLAINS.

PUEBLO, January 18.—Sensational reports sent out to eastern press that this city is overrun with small pox is positively untrue. Not a single case has been reported to the board of health up to this date.

Union Pacific and the Government.

BOSTON, January 18.—J. H. Bromley will retire from the office of assistant to the president of the Union Pacific railroad March 1st. Bromley's duties have been chiefly in connection with the effort to procure a settlement of questions between the company and the government. It having been decided that no further effort in this direction will be made after the present congress the department in Bromley's charge will be discontinued. In accepting his resignation President Adams writes: "As you say, the work you came here to do is practically accomplished as far as your part is concerned. We have not got a settlement with the government nor are we likely to get one, but the tone of the press towards us largely through your exertions, has been greatly moderated, and our case is fairly understood. I have no hope of being able to attempt anything of that sort in the short time left me. I have wasted four years in a futile attempt at an honest settlement and have no more years to give to the work which would in these years have been worth doing."

A Cashier's Peculations

PITTSBURG, January 18.—It is alleged that Henry S[illegible]gt, arrested last night, misappropriated funds of the Belmont Farmers and Merchants bank to the amount of over $250,000. He was cashier 19 years, resigned last spring to go into other business, and the bank failed in September. The arrest was made on the strength of a report by an expert accountant. The investigation is not complete. It is thought failure criminated.

ADMIRAL LUCE MAD.

A Haytian Gunboat Runs Down an American Vessel.

American Officers Believe the Act was Intentional.

Admiral Luce Telegraphs for Two More Ships.

He Will Make Further Demands "at the Cannon's Mouth."

Reckless Haytians.

PORT AU PRINCE, January 16.—The steamship Haytian Republic was run into by the Haytian gunboat Nerette Voltaire on the night of December 30, inflicting slight damages to her bow. The Haytian gunboat entered the harbor at full speed and could scarcely be seen in the dark without any change of course, but when within 200 yards of the Haytian Republic the latter was suddenly put to port and remained so until she struck the vessel. Then the engines were reversed. She backed 1,200 yards and again stopped at full speed until within short distance from the Haytian Republic when her course was slightly changed, just missing her.

The gunboat was hailed both times, but no answer was made, neither did her officers attempt to ascertain the amount of damage done or offer assistance. After ascertaining the damage done the Galena sent an armed boat's crew to the offending gunboat, where the statement was made that steaming of the latter was the cause of the collision. The collision was deliberate and was made to sink the defeated ship. It is a question whether the scheme was originated by higher authority than the captain of the gunboat.

The Galena's officers met the next day and a demand for investigation was made upon the Haytian government. Indemnity of $50,000 has been agreed on for the seizure of the Haytian Republic. She will return to New York about February 15th. Admiral Luce has notified the Haytian government that he considered the blockade of all northern ports completely raised, because of the destruction of their property by all the Haytian belligerents. He writes Secretary Wagner that in case of the illegal seizure of another American vessel he would land marines at the capital's expense.

Luce then continues to assume magnificent airs. No one of importance seems to have called, only individual merchants. Hyppolite has compelled 20 miles of Port au Prince to name the leaders of the late revolution, as well as people sent the peaceful return of the city. By next week Luce is to be joined by the Galena and Yantic, when he will demand the punishment of the candidates for the presidency. Admiral Luce has telegraphed for two more ships.

WASHINGTON, January 18.—The department of state has received a cablegram from Consul Allen at Kingston, Jamaica saying that the United States steamer Ossipee arrived there to-day with the Haytian Republic.

NEW YORK, January 18.—Advices to January 16, from Kingston, Jamaica, say the Galena was there; all well.

Colorado Legislature

SENATE.

DENVER, January 18.—After disposing of the journal the senate went into committee of the whole, Bullard in the chair. Senate joint memorial No. 1, asking congress to make appropriation for survey of the arid regions and to establish reservoirs, was taken up, slightly amended and agreed that when the committee rise the bill be referred back to the senate and passed.

Senator Montez's bill providing for the payment of bounties on scalps of coyotes, wolves and mountain lions was taken up and caused considerable discussion, the amount to be paid being the subject of discussion. It was finally agreed $1 shall be paid for wolves and coyotes and $10 for lions. The bill was then referred to the committee on revision.

The committee rose, Cochran, chairman of the committee on inaugural ceremonies, presented his report showing bills for $1,252 20 had been audited. The report was accepted, and it was agreed that the bills be paid out of the legislature's contingent fund.

McCreery introduced a bill to establish a state normal school. Referred.

Poole introduced a bill to allow the state board of capitol commissioners to pay for work done on the capitol. Both bills were referred.

The senate adjourned to Monday.

HOUSE.

At the conclusion of the reading of the journal of yesterday the house received the report of the committee appointed to wait upon the supreme court for the purpose of getting their opinion upon the constitutionality of the proposed bill providing for redistricting the state for legislative purposes. The court decided in the affirmative and the report was adopted.

Among the bills introduced the following were the most important: By Clark of Elbert, an act providing for regulating the issuing of licenses for the sale of liquors, by Feldhauser of Arapahoe an act providing for establishing a bureau of immigration and statistics.

A resolution adopted at a meeting of citizens of Elbert county opposing division of the county was read and referred. The resolution is signed by over fifty of the principal farmers of the county and sets forth that designing town site men and capitalists who are being desirous of enhancing the value of town property of which they are the principal owners now before the legislature will petitions asking that our county be divided into two or more counties, and divided as will the town sites to pay. It was urged on immigration and draw [illegible] from our county and further that our present population [illegible] who pay taxes and support [illegible] warrant such division and that [illegible] not yet produced [illegible] know that it ever was [illegible] wants and pay the necessary [illegible] We therefore protest against such division and earnestly pray the [illegible] assembly to defeat any such measure. The Parnell Inquiry

LONDON, January 18.—When the Parnell commission met this morning, R. T. Reid, M. P. one of the counsel for the Parnellites called the attention of the court to a placard issued by the Sackville Telegraph, in which was printed the words: "The Infamous Ring's Confession in Open Court." Justice Hannen ordered that the matter be embodied in an affidavit.

The stalls in the Green Mountain Falls office are becoming quite popular for business purposes. There are now nine business firms represented in the room.

The examinations of candidates for positions in the city schools, which were to have taken place to-day and to-morrow, has been postponed for two weeks.

In our [illegible] will be found an advertisement of Cripple City. It tells whom you should address if you wish to know more details regarding it.

The large plate glass windows were placed in the front of Morley, Hiver & Co's establishment on Weber st. The appearance of the old building is completely transformed.

The remains of Hattie Sawyer, aged 16 years, who died in this city yesterday, were forwarded to Muskogee, Indian territory, last night. She was a half-breed Indian girl of the Creek nation who came here some time ago hoping to benefit her health by a change of climate. Her father is a wealthy ranchman and cattle owner in the Indian territory.

There was an important meeting of the board of directors of the Exchange National bank yesterday. There were several changes made in the officers of the institution. Mr. D. B. Fairley, the vice president, and Mr. J. J. Inman, the cashier, refusing a reelection, and Mr. D. Heron, the presidents being transferred to the position of cashier. The officers elected for the ensuing year are F. E. Dow, president; Geo. De La Vergne, vice president; David Heron, cashier. Mr. F. E. Dow, the new president, is an old citizen of Colorado Springs and a conservative business man, and no doubt the bank will succeed with continued prosperity under his guidance.

An invoice of stone ware grease traps has been received by the Western Building and Supply company. These traps are used almost altogether in Newport, R. I., under the authority of the best sanitary engineers in the country, and have the endorsement of some of our best physicians here. The traps can be examined at the company's offices on Nevada avenue near Pike's Peak. The company also has the agency for the Dunning wrought iron tubular boilers for heating—one of the best boilers now made in the country and also the agency for the "Perfection" radiators, the only radiator made which is pronounced "architecturally correct."

"Alone in London" will be the attraction at the opera house this evening. The Boston Daily Globe says: "Alone in London" is one of those fascinating plays that arouse sympathy, but at the same time is not tiresome in this respect, for a goodly amount of humor has been infused into it, and while one may be inclined to feel sad one moment, the next is likely to cause a burst of merriment. Like most melodramas, there are incidents that verge on the impossible, but they are not carried to that extent that they become ludicrous. There is plenty of action, situations that are startling, even thrilling, and the comedy part is full of comicalities which are sure to produce a laugh. The attention of the audience is held throughout."

"Pete" has been found. Pete is (or was) Duncan Bell's cat, and it will be remembered that he was lost some time ago and advertised for. He was found yesterday under the floor of the GAZETTE press room. Pete has been making his presence known to the boys in the press room for some time, not by any means wishing but just simply making himself known. When found Pete was in a most condition to pass as a bad actor or to the fellow who feeds you on the street these days and remarks, "This is regular winter weather." There were no ceremonies connected with the last disposition of the lamented Pete, no long string of carriages, no costly fallows display. Just Peter Downs' scavenger cart and a rapid, jolting ride to the city's dumping ground.

AUSTIN BLUFFS!

One Hundred Choice Lots Now Ready for Distribution

IN THIS BEAUTIFUL TRACT

Unquestionably the most desirable Residence Lots ever offered to citizens of Colorado Springs. Each Lot contains from one to two acres. Unsurpassed as a Health Location.

Pure Air! No Dust! No Smoke! No North Winds! No Irrigation Except by Sprinkling! Plenty of Sunshine

At least one hour more Sunshine each day than we have in our city. Plenty of Pure Water for domestic and Sprinkling purposes, brought ten miles through Iron Pipe expressly for this tract. The finest combined view of mountain and plain that can be had from any point in the state. This location speaks for itself. Our physicians recommend it in highest terms.

THE BOSTON LAND CO. TRACT--Through which Cascade Avenue passes, still offers the finest opportunity for investment in LOW-PRICED LOTS. Lots $100 to $250--On Easy Terms.

BOULDER HEIGHTS--This choice tract, only six blocks from center of our city, offers Special Attractions to those desiring residence near to business. Fine View over our city. Plenty of Water, both for domestic and irrigating purposes. CHOICE ACRE TRACT Also in this locality.
